Backtests: college 2021-2025 (engine and framework), NFL engine 2016-2025, NFL framework 2022-2025; every game predicted only from what was known before it (results/audit_2026-10-24). October (weeks 4-8) is the hardest stretch of the year for every model. Expected wins: the sum of the win chances of the graded picks.

Off the record (no-pick games, never in a record). The team each model would have taken went College engine 36-25, framework 36-25; NFL engine 2-5, framework 2-5.

NFL against the closing line (grading only, never an input). Same 36 games: engine 16-19-1, closing-line favorite 23-12-1. Brier (lower is better): engine 0.264, closing line 0.219.

Live winner calls (separate tool, not part of the picks). Called at ESPN's 98% live win chance: 28-0, 5 not final.
