How each list was made. Earlier chat: Claude's analysis from your football prompt, weighing trench play, efficiency, passing matchups, situation and high-leverage execution; no stats were shown. Engine: opponent-adjusted expected points and success rate from 2024-2026 play-by-play, calibrated on the 2025 season; no betting lines, records, yards or points scored. Confidence is the earlier chat's 1-10 score; win chance is the engine's.
